SUMMARY

Frontend Developer with **4.5+ years of experience** building scalable enterprise applications using React.js, TypeScript, Next.js, Vite, React Native, and Redux Toolkit. Experienced in modular frontend architecture, reusable component libraries, REST API integration, RBAC, and performance optimization.

SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), Next.js, React Native, Vite, HTML5, CSS3, SCSS

UI: Material UI, Tailwind CSS, Bootstrap, Responsive Design

State Management: Redux Toolkit, Redux, Context API, React Query (TanStack Query)

Architecture: Feature-Based Architecture, Clean Architecture, Component-Driven Design, DTO Mapping, RBAC

Backend & APIs: REST APIs, Node.js, Express.js, JWT, OAuth, Axios

Performance: Lazy Loading, Code Splitting, Memoization, Bundle Optimization

Tools: Git, GitLab, GitHub, Jira, Postman, VS Code, Chrome DevTools, CI/CD

AI Tools: GitHub Copilot, ChatGPT, Claude AI

EXPERIENCE

Ernst & Young (EY) India LLP

Consultant – Frontend Developer

Jun 2026 – Present

New Delhi, India

- Developing enterprise applications using React.js, TypeScript, Vite, Redux Toolkit, Material UI, and Tailwind CSS for **Government Digital Transformation** projects.
- Designed **feature-based frontend architecture** with reusable DTOs, Mappers, API Services, Redux Slices, Hooks, Controllers, and shared UI components.
- Built reusable dynamic forms, multi-step workflows, data tables, file uploads, and configurable widgets for complex business workflows.
- Integrated secure REST APIs with centralized API abstraction, interceptors, error handling, and asynchronous state management.
- Improved performance and maintainability using lazy loading, memoization, reusable hooks, and bundle optimization; contributed to code reviews and production releases.
- **Tech Stack:** React.js, TypeScript, Vite, Redux Toolkit, Material UI, Tailwind CSS, REST APIs, GitLab

MobilePe Fintech Pvt. Ltd.

Frontend Developer

Oct 2023 – Jun 2026

Noida, India

- Developed **Merchant Portals, BBPS, Payment Gateway, Settlement Systems**, and Admin Dashboards using React.js, Next.js, React Native, and TypeScript.
- Implemented RBAC, authentication, merchant onboarding, payment processing, reconciliation, settlement, and transaction monitoring with REST APIs.
- Built cross-platform applications using **React Native** with optimized navigation, offline support, and responsive user interfaces.
- Implemented **React Query** for API caching, background synchronization, optimistic updates, and server-state management.
- Improved responsiveness by **25%** using lazy loading, memoization, and dynamic imports; supported production issues using Firebase Crashlytics and root cause analysis.
- **Tech Stack:** React.js, React Native, Next.js, TypeScript, Redux Toolkit, React Query, REST APIs, Firebase Crashlytics, Git

Tata Consultancy Services

Software Engineer

Aug 2021 – Nov 2022

Bangalore, India

- Developed enterprise web applications using **React.js**, reusable components, responsive layouts, and REST API integrations.
- Implemented authentication, protected routing, and dynamic forms following modern frontend practices.
- Optimized application performance using lazy loading, efficient state management, and rendering optimization.
- Participated in Agile development, code reviews, production deployments, debugging, and release support.
- **Tech Stack:** React.js, JavaScript (ES6+), Tailwind CSS, REST APIs, Git

Newgen Software

Software Engineer Intern

Apr 2021 – Jul 2021

Noida, India

- Developed **banking workflow modules** using JavaScript, HTML5, CSS3, dynamic forms, and client-side validations.
- Resolved UI defects and supported testing and deployment activities for enterprise banking workflows.
- **Tech Stack:** JavaScript, HTML5, CSS3

EDUCATION

GL Bajaj Institute of Technology and Management

Bachelor of Technology (Computer Science Engineering) – 78.24%

2017 – 2021

Greater Noida, India
